

PREDIX (PDX)

Whitepaper v1.0

AI × Prediction Market × DeFi × Solana

The Future Has a Market.

1. Overview

PREDIX (PDX) is a Web3 ecosystem built on the Solana blockchain that combines Artificial Intelligence (AI), Prediction Markets, DeFi, and DAO governance.

Our mission is to create a next-generation decentralized prediction platform where anyone can participate in forecasting future events by leveraging AI technology and the collective intelligence of a global community.

Powered by Solana's high-speed and low-cost infrastructure, PREDIX integrates AI-driven market analysis, decentralized prediction markets, staking, DeFi services, and community governance into a unified ecosystem.

2. Vision

PREDIX aims to become:

“The World’s Leading AI-Powered Prediction Market.”

Our platform will enable users worldwide to predict outcomes across a broad range of topics, including:

- Politics
 - Global Economy
 - Financial Markets
 - Cryptocurrencies
 - Artificial Intelligence
 - Sports
 - Entertainment
 - Technology
 - Weather
 - Major Global Events
-

3. AI Agent

The PREDIX AI Agent continuously analyzes market conditions in real time through multiple data sources, including:

- Market trends
- Social media sentiment
- News analysis
- On-chain analytics
- Market volatility
- Liquidity monitoring
- Risk assessment

Future AI capabilities include:

- AI-assisted BuyBack optimization
 - Market surveillance
 - Abnormal activity detection
 - AI-assisted market creation
-

4. Prediction Market

PREDIX plans to offer decentralized prediction markets covering numerous categories, including:

- Bitcoin Price
- Cryptocurrency Markets
- Artificial Intelligence
- Global Economy
- Stock Markets
- Sports
- Elections
- Weather
- Entertainment
- Technology

All prediction markets are designed to operate through transparent smart contracts to ensure fairness and decentralization.

5. AI BuyBack & DeFi Reward

Revenue generated from Prediction Markets and ecosystem services will be reinvested into the PREDIX ecosystem.

Fee Allocation

- 50% → PDX BuyBack
- 50% → DeFi Reward Pool

BuyBack

Repurchased PDX tokens may be allocated for:

- Long-term treasury holdings
- Future token burns
- DAO Treasury
- Ecosystem development
- DeFi Reward Pool

Rewards may be distributed to:

- Staking participants
 - Liquidity Providers (LP)
 - Future DeFi services
 - Active ecosystem contributors
-

6. Token Information

Item Details

Project PREDIX

Token PREDIX

Ticker PDX

Blockchain Solana

Standard SPL

Total Supply 10,000,000,000 PDX

Contract Address

7. Tokenomics

Allocation Percentage Amount

Community & Public Sale 40% 4,000,000,000 PDX

Ecosystem Development 15% 1,500,000,000 PDX

AI Development 10% 1,000,000,000 PDX

Marketing 10% 1,000,000,000 PDX

Liquidity 10% 1,000,000,000 PDX

Reserve (Locked for 5 Years) 10% 1,000,000,000 PDX

Staking & DeFi Rewards 5% 500,000,000 PDX

The Reserve allocation (10%) will remain locked for five years to support the long-term sustainability and stability of the ecosystem.

PREDIX (PDX) Tokenomics

Total Supply: 10,000,000,000 PDX

8. PDX Utility

PDX serves as the native utility token within the PREDIX ecosystem.

Primary utilities include:

- Participation in Prediction Markets
- Access to AI-powered analytics
- Trading fee discounts
- DAO governance voting

- Token staking
 - Liquidity provision
 - DeFi rewards
 - Premium platform features
-

9. Roadmap

2026

- Project Launch
- PDX Token Generation
- DEX Listing
- AI Development Begins

2027

- AI Agent Beta
- Community Expansion

2028

- DAO Framework
- DeFi Development

2029

- Prediction Market Testnet
- Smart Contract Security Audit

2030

- Prediction Market Beta
- AI BuyBack Engine
- DeFi Reward System

2031

- Official Prediction Market Launch
- AI Agent Mainnet Release
- BuyBack Program Launch
- DeFi Reward Launch
- DAO Governance Launch
- Global Expansion

2032 and Beyond

- Mobile Application
- Cross-Chain Integration
- Advanced AI Features
- Worldwide Ecosystem Expansion

10. DAO Governance

PREDIX plans to introduce decentralized governance through a DAO.

PDX holders will be able to participate in voting on:

- New platform features
- New prediction markets
- BuyBack policies
- DeFi reward structures
- Treasury management

11. Security

PREDIX is committed to maintaining a secure and transparent ecosystem through:

- Smart contract audits
- Multi-signature wallets
- AI-powered monitoring systems
- Comprehensive risk management
- Solana blockchain infrastructure

12. Future Outlook

PREDIX seeks to build the next-generation prediction infrastructure by combining:

- Artificial Intelligence
- Prediction Markets
- DeFi
- DAO Governance
- Web3 Technology

Our long-term objective is to establish a sustainable decentralized ecosystem where AI, collective intelligence, and blockchain technology work together to create a transparent global prediction marketplace.

13. Disclaimer

This Whitepaper is provided solely for informational purposes and describes the vision and development plans of the PREDIX project. It does not constitute an offer to sell, a solicitation to buy, investment advice, or financial advice.

Nothing contained in this document should be interpreted as a guarantee of future performance, token value, liquidity, BuyBack activity, DeFi rewards, roadmap execution, or service availability.

Project specifications, tokenomics, roadmap, platform features, governance mechanisms, and operational policies may be modified due to technological developments, market conditions, legal or regulatory requirements, security considerations, or DAO governance decisions.

Participants are solely responsible for conducting their own research and complying with all applicable laws and regulations within their jurisdictions.
